## Login page - desktop view with details

Login page - mobile view, form open with details

The image shows a mobile login page design with a teal background. At the top is a logo consisting of stylized letters 'CODE' in a rounded rectangle. Below the logo is a 'LOGIN' button. Underneath the button is a form with 'User Name:' and 'Password:' labels, each followed by a white input field. Below the input fields is a 'SUBMIT' button. At the bottom is a 'SIGN UP' button. Annotations include: 'Border color white' and 'Text color white' pointing to the form's border; 'Submit buttons color is #4a7e84' pointing to the 'SUBMIT' button; and 'When pressed on a red button, the other red button shrinks by 50%' with arrows pointing to both the 'LOGIN' and 'SIGN UP' buttons.

Border color white

### New post

Title:

Title comes over the picture

Description:

if there's no title or description  
a notification will pop-up

Button text color is white

CHOOSE FILE

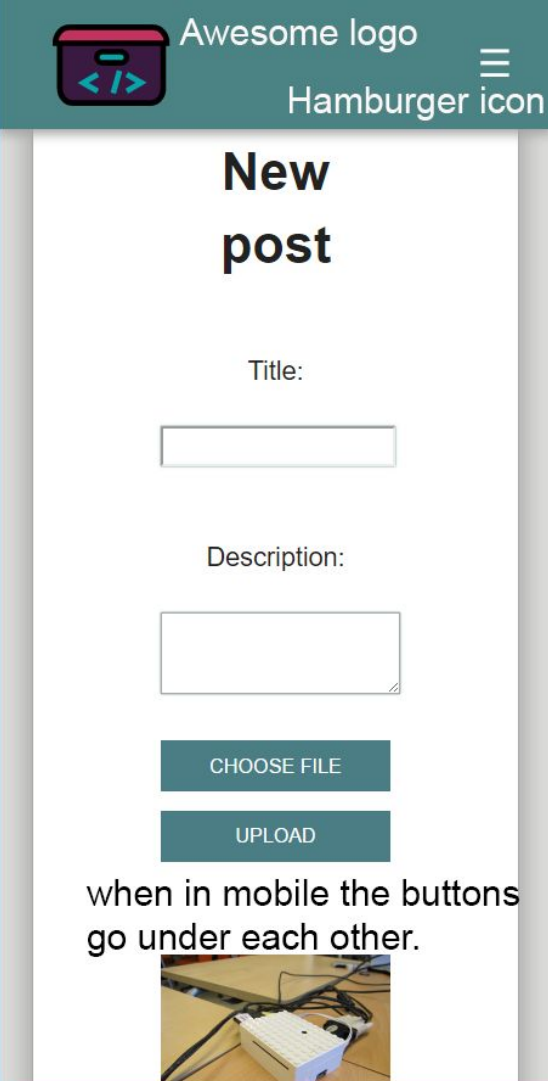

UPLOAD

button color is #4a7e84

when "Choose file" is pressed and  
picture selected a preview will be  
showed under the buttons.

Upload page mobile, file selected

The image shows a mobile application interface for creating a new post. At the top, there is a teal header bar containing a logo on the left, the text "Awesome logo" in the center, and a hamburger menu icon on the right. Below the header, the main content area is white and features the title "New post" in a large, bold, black font. Underneath the title, there are two input fields: one for the "Title:" and a larger one for the "Description:". Below these fields are two teal buttons stacked vertically, labeled "CHOOSE FILE" and "UPLOAD". At the bottom of the screen, there is a small photograph of a white electronic device, possibly a Raspberry Pi, connected to various cables on a wooden desk.

**New post**

Title:

Description:

CHOOSE FILE

UPLOAD

when in mobile the buttons go under each other.
